

Attention: Workplace Supervisor

Senior high school students attend a business for a week to gain practical experience, skills and knowledge about the industry.

They learn to communicate with the staff and supervisors. Employers offer students a range of industry activities that suit their resources and their business.

Benefits for Business

You can:

- Raise your profile within the community
- Access potential part-time & full-time employees
- Develop training programs and supervisory skills
- Participate in special events and receive media coverage

• • • Below are tasks that your workplacement student may be able to do in the workplace. They are designed to assist you with planning your student's workplace learning.
