

## Inspiring Youth Employment Options

'Employability and Expectations' was the focus of the 2016 Seek a Skill Interactive Careers Expo, held on the 11th and 12th of May at the Gipps Road Sporting Complex. In addition to providing volunteers from across their entire organisation, Holroyd City Council's financial contribution made the event possible. SWSi TAFE and TAFE NSW also provided input and resources.

Almost 1,200 students from across 30 primary and high schools attended, along with another 200 Holroyd City Council Community participants (CALD, long term unemployed, newly arrived residents, refugees, youth, women

and older people) gained insights into careers and pathway options.

Over the 2 days, approximately 180 volunteers and stall holders from across 48 exhibitors contributed to making the event valuable and enjoyable. Seek a Skill continues to be the YCI Team's biggest and most anticipated event.

Participants had a go at different trades including, bricklaying, floor laying, tiling, carpentry, butchery, horticulture, animal care, automotive, robot arm mechanics and martial arts. This is the third consecutive year the event has taken place under the Seek a Skill

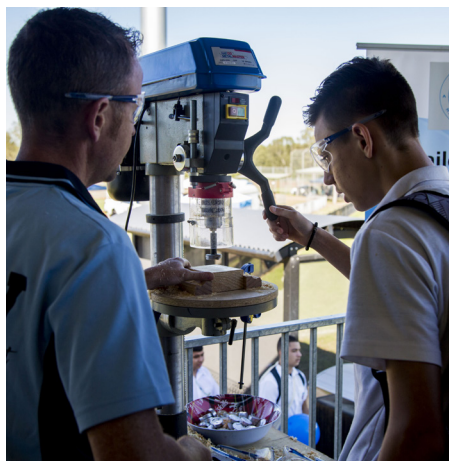

banner. In previous years, the event relied on the 'Try a Trade' truck. With a focus on sustainability and relevance, SWC and its partners developed the Seek a Skill Interactive Careers Expo, as a means of addressing the skills and jobs shortages across Western Sydney and inspiring young people to consider and explore career pathways by connecting with people already in the field or have the resources to help them.

There is an array of research and reports in the media highlighting the alarming rate of youth unemployment in our region and it will take a great deal of resources and a collective impact approach to combat the issue. Over the past decade, SWC has taken an early intervention approach by lifting the aspirations and showing young people (even from primary school age) the various employment pathways and options available to them. The aim of our initiatives is to identify their interest, passion and skills to create a meaningful vocation.

When young people feel empowered, inspired and motivated to achieve their goals, and are provided with appropriate skills and resources, they will focus their time and energy on achieving their goals regardless of their background or the adversity they previously faced as evidenced by the many success stories within our community over the years. The Seek a Skill motto of "find out what you like doing best and get someone to pay you for doing it" (Katherine Whitehorn) remains highly relevant as we continue to explore opportunities to evolve the Seek a Skill initiative to inspire even more young people.

NSW Police Fairfield Local Area Command, presented with a certificate of appreciation from former Holroyd City Mayor Clr Greg Cummings. (Bottom row) 4. South West Connect Workplacement Team. 5. TAFE SWSi Electrotechnology (robot arm). 6. TAFE SWSi butcher demonstration.*

## Lenovo Prize Winner

For the third consecutive year, Lenovo supported the Seek a Skill Careers Expo by providing a YOGA tablet 2 Pro as a prize to a worthy student. Mikaela Ogden, from Bonnyrigg High School was the deserving winner, she also actively participated at Seek a Skill and enjoyed speaking with many exhibitors to gain a better understanding of the types of career options available.

Mikaela intends to use the device to research information for her school assignments and homework as well as finding online resources that will help her to make better career choices.

When Mikaela opened the box, she said "It's awesome that it even has a built in projector, almost like having my own theatre and the screen is so large and clear it makes it easy to read and research information."

In her spare time Mikaela will use the device to watch her favourite video clips, play games, listen to music and utilise other social media and entertainment options.

Mikaela's teachers were pleased that such a deserving student was the winner of a technology device that will help with school work.

*Mikaela is standing in the front row, directly in front of the YOGA tablet 2 Pro box which is held by fellow student Johnathon Pathounphanh, who was awarded a Stockland gift voucher.*
