

# Metal & Engineering

## Why study Metal & Engineering

As part of your HSC you can choose to study a VET Course.

The major industry activities and sectors are metal fabrication, metal manufacturing, Aeroskills, metal machining, transport equipment manufacturing, electrical equipment and appliance manufacturing, and industrial machinery and equipment manufacturing.

Your course allows you do 2 weeks of workplacement.

## Whilst on Workplacement You Can

- ✓ Operate and monitor machine process
- ✓ Use hand tools
- ✓ Measure with graduated devices
- ✓ Do general machining
- ✓ Perform routine oxyacetylene welding
- ✓ Use comparison and basic measuring devices
- ✓ Do manual soldering
- ✓ Apply Workplace Health & Safety principles

Work Placements and School-based Apprenticeships & Traineeships are excellent opportunities for students to gain valuable experience in workplaces while still at school.
